

Let us help you manage your energy bill!

To help with fluctuations from month to month, sign up for our Budget Plan. Here is how Virginia Natural Gas can help!

How does Budget Plan work?

Calculate

To determine your annual bill amount, we calculate your natural gas bill charges from the last 12 months and estimate gas prices for the next 12 months.

Average

We divide that annual bill amount by 12 months to determine your new monthly Budget Plan amount.

Review

About every three months we'll review your account and may adjust your monthly budgeted amount so that your payments are in line with your actual usage and the price of gas.

Who can use Budget Plan?

To enroll in Budget Plan, you must be current on your natural gas bill. If not current, you'll need to pay the past-due balance or set up a payment arrangement for this balance to be eligible to enroll in the Budget Plan.

Give us a call at **866.229.3578**, scan the QR code or visit us online at **virginiannaturalgas.com/myaccount** to begin the enrollment process.
