

Pressure Improvement Project

Red lines indicate the new Main installation on the aforementioned affected streets. The blue rectangle indicates the proposed Distribution Regulator location.

Clark Ln Pressure Improvement Project

The work in your area is part of the **Pressure Improvement (PRIM)** program, our company's modernization initiative aimed at improving our existing natural gas infrastructure. During this project, we will install mains connecting (2) existing gas networks to provide an additional supply source to the Sentara Williamsburg Regional Medical Center and to improve the natural gas delivery to the surrounding rapidly developing area.

Virginia Natural Gas reminds community members to remain vigilant and use extra precaution around any active construction site. Ensure the safety of your children and pets by keeping them away from work areas. When traveling through construction zones, drive and walk carefully, do not park in locations marked as hazardous and follow and obey the direction of traffic signs and on-site crews.

Counties Affected

James City County
York County

Streets Affected

Clark Ln
Curry Dr
Horner Ln
Mooretown Rd
Old Mooretown Rd
Richmond Rd

Project Scope

Installation of approximately 2,100' of 6" Steel main and 1,250 feet of 8" Polyethylene main and (1) Distribution Regulator to provide an additional supply source to the Sentara Williamsburg Regional Medical Center and the surrounding rapidly developing area.

Our Commitment

Virginia Natural Gas is committed to completing our PRIM project as quickly and safely as possible and with minimal service interruptions. We will keep you informed of any construction work affecting your neighborhood. Thank you for your patience.
