

Route 360 Extension Project

Project location, affected streets highlighted in blue

With over 175 years of service, **Virginia Natural Gas** is dedicated to delivering clean, safe and reliable natural gas to more than 310,000 homes and businesses across our region.

We're extending a natural gas main north in King William County along Route 360.

Drivers may notice changes to traffic patterns along portions of the highway during construction. We are working closely with VDOT to ensure proper traffic controls are in place to minimize travel impacts. Please refer to our map for an overview of the construction area.

For more information about our construction process, scan the QR code to visit our website and follow your local Nextdoor feed for updates related to lane closures and traffic control measures.

We recognize that construction can create temporary inconveniences. We sincerely appreciate your patience and partnership as we expand natural gas toward the area.

Project Location

King William County

Project Streets

Richmond Tappahannock Hwy(Rt 360)

Project Scope

Installation of:

- Approx. 3 miles of 12-inch natural gas main

Our Commitment

Virginia Natural Gas is committed to completing our extension project as quickly and safely as possible with minimal impacts.

Our customers and communities are the center of all we do. We're proactively reaching out to ensure:

- You're aware of our work
- You know where to find more information
- You know how to contact us with any questions
