

# Pipeline Replacement Project

Project map, affected streets highlighted in red (above)

## Marne Renewal Project

As part of Virginia Natural Gas' Pipeline Replacement Program (PRP), the natural gas mains and services in your area are scheduled for renewal this year. The PRP program was established to replace older mains/services which may have developed leaks or become damaged over time due to road projects, age, or other utility installation. The old steel mains will be replaced with new polyethylene plastic that is less expensive to maintain, more durable, and provides the community with reliable, safe, clean natural gas for years to come.

Operators installing main use directional drill technology to minimize the impact on residents and traffic. Any disturbance to streets, driveways, and property is temporary and will be restored to the condition it was in prior to the renewal project.

Directional drilling minimizes impact (right)

### STREETS AFFECTED: MARNE – NORFOLK

Argonne Avenue .....	3200 Block
Chesapeake Blvd. ....	3100 Block
Lafayette Blvd. ....	2700-3000 Blocks
Lens Avenue .....	2900-3100 Blocks
Lyons Avenue .....	3100 Block
Marne Avenue .....	2900-3100 Blocks
Verdon Avenue .....	2900-3100 Blocks

### PROJECT SCOPE

#### Installation of:

- 5,375' of 2" plastic
- 1,080' of 4" plastic
- 127 customer services

### PIPELINE REPLACEMENT PROGRAM

- Replacement of steel mains and services
- Increased reliability
- Improved service
- Clean, safe, efficient natural gas
