

Pipeline Replacement Project

Project map, affected streets highlighted in red (above)

Streets affected – Norfolk

Beachview Street	Hastings Street
Brighton Street	Hyde Park Road
Calla Avenue	Lindale Lane
Carlton Court	London Street
Chapin Street	Maplewood Avenue
Chesapeake Blvd	N Beachview Street
Creamer Road	Oak Park Avenue
Devon Street	Old Ocean View Road
Dune Street	Pinedale Street
E Bayview Blvd	Pineview Avenue
E Chester Street	Plymouth Street
Earl Street	Pythian Avenue
Elm View Avenue	Short Street
Euwanee Place	Warwick Avenue
Farrell Street	Woodford Street
Fishermans Road	

Project scope

Installation of:

- 576 Services
- 37,119' of 2" plastic
- 1,002' of 4" plastic
- 6,077' of 6" plastic
- 4,906' of 8" plastic

Our commitment

We understand your time is valuable, so we take great care in implementing construction practices that limit disturbances to homeowners and businesses. We appreciate your patience and understanding as we work to complete this important work.

Cremer Road project

Virginia Natural Gas provides safe and reliable natural gas service to more than 290,000 customers across southeastern Virginia. To ensure that safety and reliability are maintained, we have already made significant enhancements to portions of our natural gas distribution system and we plan to continue by replacing more than 200 miles of older, aging underground infrastructure with new, more modern pipes in coming years.

The work in your neighborhood is part of the company's natural gas infrastructure modernization program known as SAVE (Steps in Advancing Virginia's Energy Plan). This program allows us to make necessary upgrades to our natural gas pipeline system with the expectation of increased safety, reliability and lower operating costs, while supporting the local economy by providing jobs and reducing emission.

As part of this project, we will replace aging mains and services, which may have developed leaks or become damaged over time due to road projects or age. The older pipe will be replaced with new polyethylene plastic that is less expensive to maintain and more durable. Perhaps best of all, we're ensuring families and business owners have ready access to America's most abundant, environmentally friendly fuel ... today and tomorrow.
