

# Pipeline Replacement Project

Project map, affected streets highlighted in red

## Park Avenue Renewal Project

Virginia Natural Gas provides safe and reliable natural gas service to more than 300,000 customers across southeastern Virginia. To ensure that safety and reliability are maintained, we will be replacing a section of aging underground infrastructure with new, more modern pipes in the coming months.

The project will be coordinated with local officials and will use traffic control measures that meet Virginia Department of Transportation standards. We take great care in implementing the safest and best construction practices to protect your property during construction and will make every effort to restore it to its original condition. Your natural gas service is not expected to be interrupted during the construction process.

This project will ensure families and business owners have ready access to clean, safe, reliable and affordable natural gas...today and tomorrow.

### City affected - Norfolk

### Streets affected

Park Ave from E. Main St to Brown Ave

### Project scope

Installation of:

- 50' of 2" plastic main
- 840' of 4" plastic main
- 1,200' of 4" steel main

### Our commitment

We understand your time is valuable, so we take great care in implementing construction practices that limit disturbances to homeowners and businesses. We appreciate your patience and understanding as we work to complete this important work.
