

# Pipeline Replacement Project

*Project map, affected streets highlighted in red (above)*

## Streets affected – Hampton

Bainbridge Avenue	N Willard Avenue
Booker Street	Perry Street
Central Street	S Curry Street
Corey Circle	S Hope Street
E Chamberlin Avenue	S Mallory Street
E County Street	Scotts Point
E Cummings Avenue	Semple Street
E Hygeia Avenue	Tennis Lane
E Kelly Avenue	Violet Street
E Mercury Boulevard	W Chamberlin Avenue
E Sewell Avenue	W County Street
E Sherwood Avenue	W Cummings Avenue
E Taylor Avenue	W Hygeia Avenue
E Virginia Avenue	W Kelly Avenue
Fulton Street	W Sewell Avenue
Henderson Lane	W Sherwood Avenue
Hopkins Street	W Taylor Avenue
Libby Street	W Virginia Avenue
Lowrey Street	Weber Lane
N Curry Street	Wilson Lane
N Hope Street	Yukon Street
N Mallory Street	

## Project scope

Installation of:

- 405 services
- 24,460' of 2" plastic main
- 5,949' of 4" plastic main
- 8' of 4" steel main

## Our commitment

We understand your time is valuable, so we take great care in implementing construction practices that limit disturbances to homeowners and businesses. We appreciate your patience and understanding as we work to complete this important work.

## Berlin project

Virginia Natural Gas provides safe and reliable natural gas service to more than 290,000 customers across southeastern Virginia. To ensure that safety and reliability are maintained, we have already made significant enhancements to portions of our natural gas distribution system and we plan to continue by replacing more than 200 miles of older, aging underground infrastructure with new, more modern pipes in coming years.

The work in your neighborhood is part of the company's natural gas infrastructure modernization program known as SAVE (Steps in Advancing Virginia's Energy Plan). This program allows us to make necessary upgrades to our natural gas pipeline system with the expectation of increased safety, reliability and lower operating costs, while supporting the local economy by providing jobs and reducing emission.

As part of this project, we will replace aging mains and services, which may have developed leaks or become damaged over time due to road projects or age. The older pipe will be replaced with new polyethylene plastic that is less expensive to maintain and more durable. Perhaps best of all, we're ensuring families and business owners have ready access to America's most abundant, environmentally friendly fuel ... today and tomorrow.
