

Virginia Natural Gas Pipeline Replacement Project

Project Name: Celey Renewal Project

Project Map, Affected Streets Highlighted in Red

As part of Virginia Natural Gas' Pipeline Replacement Program (PRP), the natural gas mains and services in your area are scheduled for renewal this year. The PRP program was established to replace older mains/services which may have developed leaks or become damaged over time due to road projects, age, or other utility installation. The old steel mains will be replaced with new polyethylene plastic that is less expensive to maintain, more durable, and provides the community with reliable, safe, clean natural gas for years to come.

Operators installing main use directional drill technology to minimize the impact on residents and traffic. Any disturbance to streets, driveways, and property is temporary and will be restored to the condition it was in prior to the renewal project.

Streets Affected

Alleghany Rd.	400 Block
Bell St.	600 Block
Colonial Ave.	400 Block
Downing St.	600-800 Blocks
Hampton Roads Ave.	400 Block
Rutherford St.	600 Block
Shenandoah Rd.	400 Block
Smith St.	600-800 Blocks
Victoria Blvd.	3100 Block

Pipeline Replacement Program

- Replacement of steel mains and services
- Increased reliability
- Improved service
- Clean, safe, efficient natural gas

Project Scope

INSTALLATION OF:
1,085' OF 6" PLASTIC
1,120' OF 4" PLASTIC
7,260' OF 2" PLASTIC
192 CUSTOMER SERVICES
